Sistema lineare ad applique, in alluminio anodizzato, dalle performance eccellenti, compatto e dalle linee essenziali, disponibile in diverse lunghezze.

Ideale per l'installazione in gioiellerie dove mette in risalto diamanti e pietre preziose favorendone il brillio.

Adatto a diverse applicazioni architettoniche, residenziali e ricettive.

Disponibile anche in versione bianco dinamico.

Applique linear light, in anodized aluminium, with excellent performances, compact and with essential lines, available in different lengths.

Ideal for installation in jewellery shops where it enhances diamonds and precious stones making them sparkle.

This device is also ideal for different architectural, residential and hospitality applications.

Also available in dynamic white.
