

Codice: AV5489XIAA

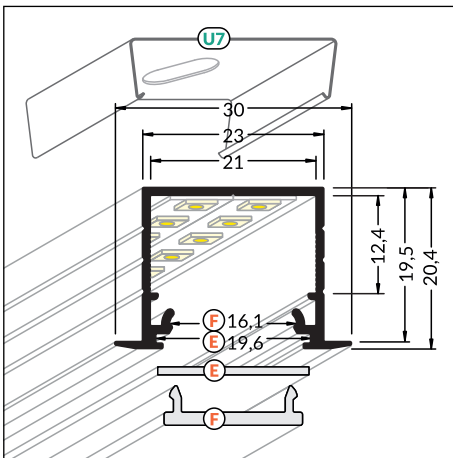

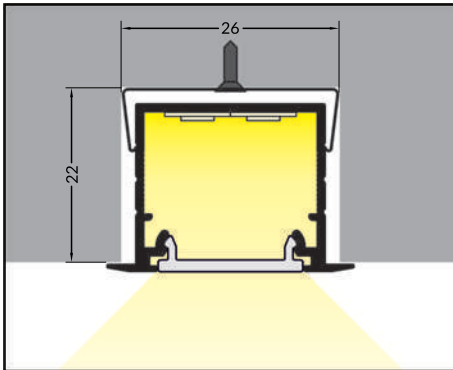

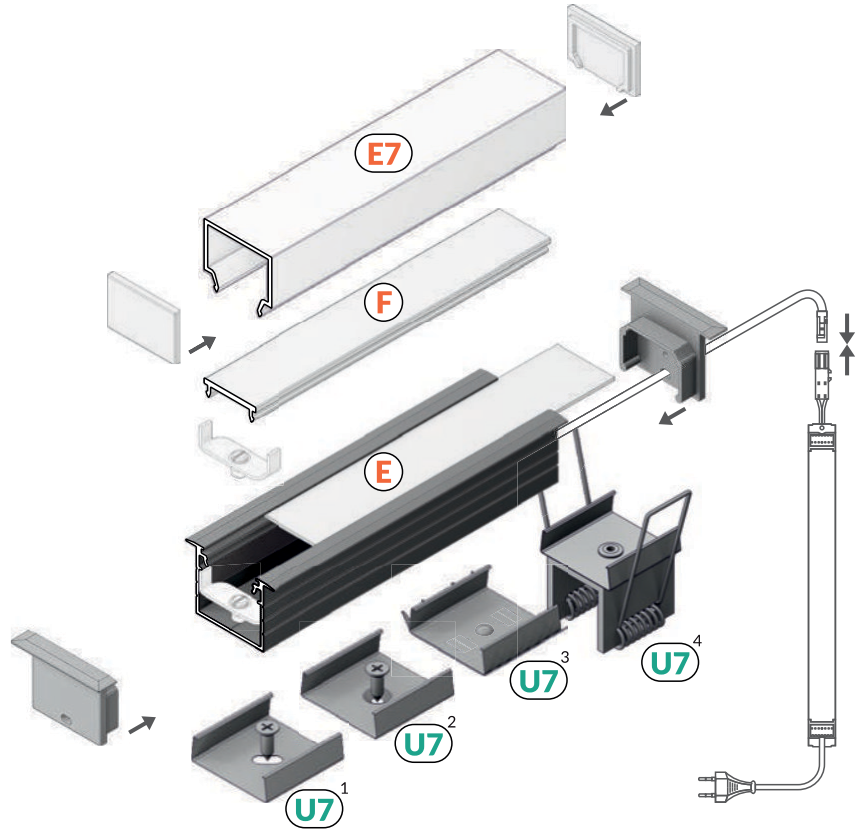

CREATING LIGHTING PATTERNS THANKS TO ANGULAR CONNECTORS

- recessed, lighting profile - dedicated to medium-voltage light sources
- continuous line of light (when using LED strip 120 P/m and white cover)
- angled connections illuminated
- 19 accessories available
- 3 mounting options of LED modules: thermic tape, LED module on a strip, additionally LED clamp
- maximum LED source width: 20 mm

ANGULAR CONNECTORS

Thanks to five different angle connectors (60° / 90° / 120° / 135° / 180°) it is possible to create many various lighting systems - with no need to cut the profile at an angle.

Bent connectors allows to connect profiles in two planes, at two angles: 90° on the inside and 270° on the outside.

The component made of clear fabric provides secure connection, letting light through at the same time. Thanks to that, the luminaire can illuminate on the entire surface of the cover - even in the corners.

CONTINUOUS LIGHT OF LINE
when using LED strip 120 P/m and white cover
